

WATER

Things to Remember!

- If you experience low or no water pressure, you are on a boil water advisory.
 - MWA can only issue advisory notifications. MDNR issues mandatory boil orders.
 - All spigots must have a vacuum breaker or air gap.
 - If you are irrigating your yard through an network, it must have the proper backflow device. Call us immediately if you do not have one and do not use it until one is installed. You risk contaminating your neighbors and your loved ones.
-
- Normal Business Hours: Monday – Friday, 9 a.m. to 5 p.m. Phone: (573) 346-3810.
 - Outside Business Hours: (573) 353-9595, (573) 280-0235
 - LEAVE A MESSAGE!!! Date, Time, Name, Phone Number, Location.
 - If you are unsure about a boil water advisory, please call the office 24/7 and listen to the recorded message.
 - Email us at info@totalenvironmental.com

SEWER

Things to Remember!

- If it smells, something is wrong!
- If it is greener than the rest of your yard, something is wrong!
- You see a red light and/or hear an alarm, something is wrong!
